

GT1500

Convenience Window

NABCO 

Product Features and Benefits

- Double-pile weather stripping keeps inclement weather outside
- Customized, reduced opening minimizes the time the window is left open
- Ease of operation and high quality, reliable construction delivers low cost of ownership
- Extruded aluminum construction with sealed, permanently lubricated track rollers for smooth operation

GT1500 Convenience Window

NABCO's GT1500 Convenience Window meets the needs of any drive-thru service area and has proven to be an ideal solution for pharmacies in need of controlled accessibility while dispensing medications. The GT1500 helps regulate settings where sound and temperature control are critical. Offering the versatility of applications in bi-parting or single-slide configurations in manual operation, the GT1500 delivers a promise of ease of operation, reliability and long life. The flexibility of the GT1500 Convenience Window makes it ideal for specialty applications.

Single Slide

Bi-part Slide

HD-anodized aluminum roller track and sealed bearing/urethane-covered rollers deliver smooth operation for millions of cycles in any type of weather.
