Revised Window Sizing for NAX Hermetic Doors

The NAX hermetic sliding door package has just had a change in the specification of the optional viewing window. Until now, the standard size of the window was 600mm x 300mm (23-5/8" x 11-13/16"). That has changed to 550mm x 300mm (21-5/8" x 11-13/16"). Custom sizes are always available but could increase lead time.

The optional viewing window in the GT9100 and GT9300 is only available in a flat frame. This is to help prevent dust accumulation and enhance ease of cleaning.

Double-sided flat frame
