Handy Terminal End of Life

NO LONGER AVAILABLE

As of June 14, 2021 NABCO Entrances will no longer be offering the old Handy Terminal programing tool shown at left.

The Handy Terminal has been replaced by the more robust and versatile NET-HT programming tool shown below

The new NET-HT programing tool shown below enables technicians to quickly and easily program the Opus, U30, U19 and earlier controls with an Android device using the NET-HT software. The software is licensed and must be obtained from NABCO Entrances via the website. This software is only compatible with an android device.

Here are some of the things you can do with the new the NET-HT tool:

1. Save all settings from one door and load those settings onto other doors.
2. Email settings to another technicians.
3. Quickly spot settings which are not factory default.
4. Program old U-series and new Opus controls.
5. Easily upgrade the terminal software.
6. See as much or as little programming options as you need to get the job done.
7. Receive modified settings from NABCO the support.
8. Clearly see multiple settings at once.

New NET-HT-Handy Terminal Kit
