

NABCO ICU

MANUAL AND AUTOMATIC TELESCOPIC SLIDING DOORS

One of the Largest Clear Openings with NABCO Reliability

- 56 ½" clear door opening width for easier access (at a 96" typical frame width)
- Flush bolt-free system not requiring additional steps to breakout
- Maintenance friendly design resolving issues against improper installations
- Smoke rated package to meet UL1784 & NFPA 105 requirements

NABCO ICU

Manual and Automatic Telescopic Sliding Doors

The NABCO ICU Manual and Automatic Telescopic Sliding Doors provides the widest room access available with a 46 1/2" clear door opening (at a 96" typical frame width) in a full-open breakout, and trackless-style unit. The flush-bolt free system in NABCO's new Automatic and Manual ICU sliding doors are ideally suited for intensive care and cardiac-care units where large access areas are required for trouble-free transport of beds, gurneys and other medical equipment and airborne germs must be kept from spreading to other areas.

Product Information

Configuration	3 Panels/Trackless
Header Size	10 5/8" [270] x 5" [127]
Package Width	84" [2134] - 144" [3658]
