

Technical Bulletin

Date	Bulletin #	Model
1/7/2026	131	NABCO doors using Opus controls
Subject		
Opus controls no longer come supplied with terminal blocks 1-14.		

Issue/Symptom

The Opus control no longer comes with terminal blocks 1-14 installed, however, the lock relay terminal is installed.

When ordering an Opus control for stock, parts order, field replacement, retrofit kits or the technician is unable to/is not reusing the terminal blocks, the terminal blocks must be purchased separately.

Solution

The terminal blocks will need to be purchased separately for any of the above scenarios.

Terminal block part numbers:

- V-00753 - Terminal Block 1-7
- V-00891 - Terminal Block 8-14
- V-00754 - Com., N.O., N.C. Terminal Block (If needed)

Applicable Model Numbers

- Any swing or slide units needing an Opus control replaced, and the current terminal blocks are not being used.
- Any Retrofit kits (except A-01423 & A-01454) will need to have the terminal blocks purchased separately.
