

Date 1/23/2025	Bulletin # 132	Model NABCO GT1175 slide doors
Subject Change in appearance/update of Rocker Switch and Key Switch		

Notice

NABCO has redesigned the Rocker Switch and Key Switch used with the GT1175 Automatic Sliding Door. The new switches maintain the same operation, size, wiring, plug ends, switches, and mounting hardware as the previous versions.

The only change is in the faceplate material and the symbols replacing the words that indicate the door position/mode. The previous style with words on the faceplate has been discontinued and is no longer available.

NOTE: The part numbers for the new switches are the same as those for the previous models.

See the pictures below for previous Rocker Switch/Key Switch design, compared to new Rocker Switch/Key Switch Design. The following page has a description of the symbols.

Previous Rocker Switch & Key Switch
Faceplate Design with Words

Part # M-00428

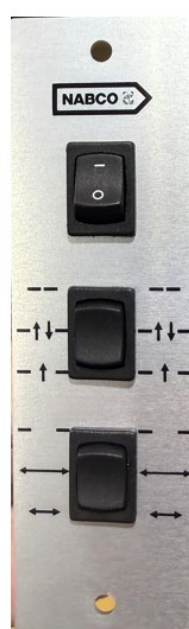

Part # M-01144

New Rocker Switch & Key Switch
Faceplate Design with Symbols

Part # M-00428

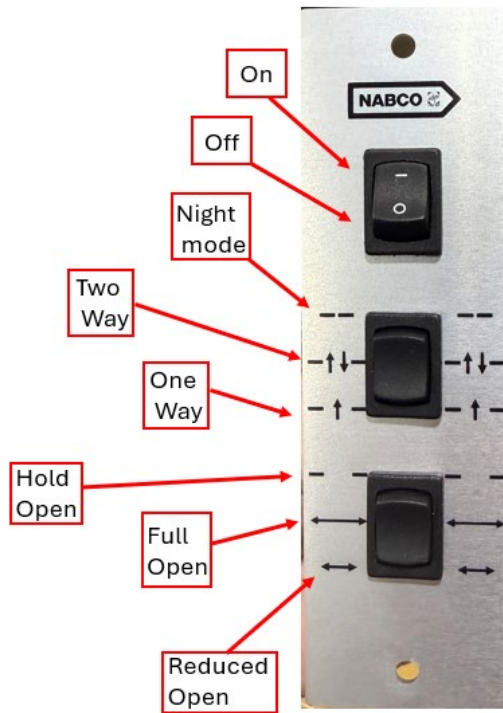

Part # M-01144

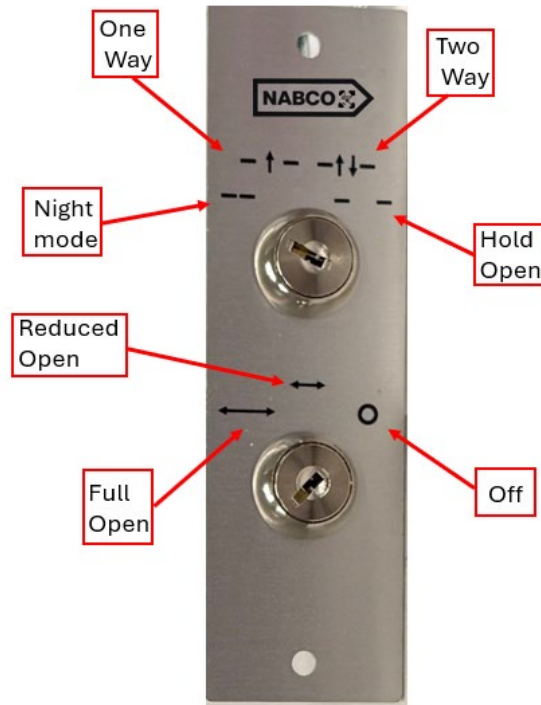

Descriptions of symbols

Rocker Switch
Part # M-00428

Key Switch
Part # M-01144

Applicable Model Numbers

- Key switch - M-01144
- Rocker Switch - M-00428
