

SWING DOOR OPERATORS

OVERVIEW

Options to Automate Swinging Doors for ADA Compliance in New Construction and Remodels

- Designed to automate essentially any new or existing door
- Proven designs for proven reliability
- Adjustable opening and closing speeds allow the door to close sooner for energy savings or slower for increased pedestrian protection
- "Push-N-Go" feature provides easy automatic operation for handicapped or elderly pedestrians and eliminates the cost of wall switches
- Recycle feature stops and reverses direction of opening door when an object is encountered for greater pedestrian protection
- Additional safety devices can be easily added from Low Energy to Full Power

Great in the Following Applications:

- | | | |
|-----------------------------|-------------------|-----------------------|
| • Healthcare | • Hospitality | • Hospital Rooms |
| • Grocery & Retail | • Malls | • Critical Care Units |
| • Airports & Transportation | • Fire Protection | • Offices |
| • Schools & Universities | • Manufacturing | |

NABCO SWING DOOR OPERATORS

Overview

Swing Door Entrance Solution for Challenging Applications

NABCO designed our Low Energy and Full Power Swing Door Operators to automate nearly any new or existing door. To create a custom operation, our adjustable closing speeds allow a door to close sooner for energy savings or slower for increased pedestrian safety. We ensure the industry's longest-lasting products - and the highest customer satisfaction - by rigorously testing operators for over one million of cycles.

NABCO SWING Door Operator with NABCO Connect,

NABCO SWING Door Operator with NABCO Connect

- Non-handed gear assembly; easy plug-and-play motor connection enabling the use of a standard unit in both left-and right-hand applications
- Low-profile 3" high header assembly allows for installation in tight spaces.
- NABCO Connect App enabled for opening, closing, and mode switch scheduling.
- New, easy-to-remove, snap-and-click cover design that provides a robust "snap" when installed across the full length of the header.

NABCO GT500/8500 Heavy-Duty Swing Door Operators

- Mechanical operator motors for quiet, efficient, and smooth operation
- Adjustable closing speeds and low power consumption to enhance energy savings
- Easily retrofit doors for ADA compliance and convenient hand-free operation
- The perfect solution for High Traffic Flow and Full Energy locations, where higher speeds/forces and/or sensors are required.

NABCO GT8500 Full Power Swing Door Operator, Single

NABCO GT710 Low Energy Swing Door Operator, Single

NABCO GT710/8710 Low Energy Swing Door Operators

- Offers Proven Reliability to Upgrade Doors to ADA Compliance
- Manual mode requires very little pressure to open promoting ease of operation
- Hydraulic back-check during windy conditions protects the door and operator from damage
